1 Introduction

This document is the English version of the specifications for the LANG [constructed language](https://en.wikipedia.org/wiki/Constructed_language)¹.

1.1 Goals and Non-Goals

The goal of this document is to provide a clear, detailed and self-contained explanation of the LANG language.

The justification of the choices that lead to design the language as it is are beyond the scope of this document. This document is purely descriptive and informative on how to use the language for those who wish to learn it.

This document does not aim to be the most intuitive way to learn the LANG language. It is the technical specifications document that define everything about the language

2 Philosophy

3 Module 1: Orthography

4 Module 2: Phonology

5 Module 3: Syntax

6 Module 4: Grammar

7 Module 5: Pragmatics

8 Module 6: Lexicon

8.1 Core words

9 Example texts

10 To go further
